#### **CAN YOU HELP ME?**

Friends, **I need a sponsor** to continue my show. Please, if you know anyone who can help, guide them to my producer: "Frank Steffans--AVR." [editor@theamericanvoice.com](mailto:editor@theamericanvoice.com). Please know that I do NOT receive one penny for all the research and reading I do, for guest line-ups, for prep time, or for airtime. I do this as a ministry.

### **BROTHER GREGORY WILLIAMS**

Want to know about the "Kingdom" to come, and where it is? Or the contract, covenants and constitutions, as well as the Higher Liberty? What about the lost sheep, or whether Christ was rich? Who were the Levites, the Zionists, good Samaritans or the good Babylonians? In addition, there will be discussions on the US Constitution, the invitation to Oregon, Abram's

journey, caring for the needy, mutual assurance, early Rome and the Gospel, the Gospel today, and much more? Then, you'll want to listen to Brother Gregory Williams on all this.

Brother Gregory was born in America in 1948. His father was a practicing attorney, and his mother the daughter of Norwegian immigrants. During the 1960's, he attended Maryknoll Society seminary at age 13 where he studied Latin, Greek, and theology, but moved on to St Josephs College, only to leave the Church in the late 60's. He then spent 50 years "uncovering the truth of what the early Church and Moses and even Abraham were doing. The Church was in fact a republic in its purest form. It was not corporate but rather a network of congregations that were seeking the independence and responsibility that God intended us to live under and by. Luke 17:21."

In the course of his studies, Gregory began to understand the forgotten truth of the *Gospel of the Kingdom of God at hand*. That quest for truth has given him an iconoclastic perception of law, history, language, governments, and our modern opinion of ancient prophets. In tearing down the altars of fallacies and falsehoods of a fatuous faith, the fullness of the Gospels of the Kingdom is uncovered in an examination of rituals, rites, and religions.

Gregory is the author of several books, dozens of pamphlets, audio and video recordings. He has appeared on radio and television preaching the gospel of the Kingdom of God at hand, and the perfect law of liberty within our reach. His compelling and provocative books include *The Covenants of the gods*, *Thy Kingdom Comes*, *the Free Church Report*, and his newest book, *The Higher Liberty*, which gives a new perspective on the "gods of the world."

Married in 1973, he is the father of six children with a growing number of grandchildren. He can be contacted through His Church at Summer Lake, Oregon, where he continues to care for his family, overseeing the formation and edification of The Living Network of the Church established by Christ in the hearts and minds of those who will preach that the Kingdom of God and His righteousness is at hand for those who will seek it.
